VENICE – THE FLOATING CITY

Enchanting Venice weaves an intoxicating spell with its unique blend of romance, shimmering canals and exquisite architecture. Humming with history, it is almost as if time has been held at bay along with the traffic. Gondolas glide as they have for centuries, grand palazzos cast their reflections into the rippling waters, and Murano's skilled glassmakers toil over their elaborate creations as they have since the 8th century.

“It is the city of mirrors, the city of mirages, at once solid and liquid, at once air and stone.”

Erica Jong, American novelist and poet
